Authorization

- A reassessment (H0032) authorization must be in place before submitting a PA request for service codes (H2012/H2014/H2019) beyond the current authorization period.
- To prevent gaps in authorizations, submit the reassessment (H0032) request 30 days prior to the end of the current authorization period.
 - **Example:** If the current authorization (for code H2012/H2014/H2019) ends on 10/1/2019, submit the request for H0032 on 9/1/19.
- The start date cannot be before the date the request is submitted. Authorizations cannot be back dated, prior authorization means get the authorization before rendering the service.
