

## Requirements for H0032

### Prior Authorization

- To prevent gaps in authorizations, providers may submit the reassessment (H0032) request up to 30 days prior to the end of the current authorization period.
  - **Example:** If the current authorization (for code H2012/H2014/H2019) ends on 4/30/2021, submit the request for H0032 no earlier than 4/1/2021.
- The start date cannot be before the date the request is submitted. Authorizations cannot be back dated; providers must obtain an authorization before rendering the service.
  - **Example:** If a PA request is submitted in eQSuite® on 4/1/2021, the start date of the item code cannot be before 4/1/2021.

### Required Documents

One of the following is needed when submitting prior authorization request for H0032/reassessment. Please note only **one** of the below is needed:

- Graphs (maladaptive behaviors, replacement behaviors & intervention integrity measures for parent training), OR
- A brief narrative summary of progress from the last treatment period, OR
- Clinical note from last encounter

Remember to upload the document into eQSuite® - this moves your request into clinical review.
