

Web Review Request

Home Health eQSuite™ User Guide

Overview:

- eQHealth Solutions (eQHealth) developed a proprietary web-based electronic review request submission system for Home Health providers.
- The system allows providers to submit the following review types: admission and retrospective reviews.
- Providers can also electronically submit additional information for previously submitted reviews and respond to adverse determinations.
- Additionally, the system includes a reporting module that can be accessed to obtain real time status of reviews requests and PA #s, and print a paper copy of electronic reviews submitted to eQHealth via the reporting module.
- The system also maintains copies of notification letters related to reviews. These letters can easily be read or downloaded by any provider staff with access to the system.

Key Features:

- One of the key features of the system is the ability to check the data upon entry directly against eQHealth's live database. This immediately prevents excluded cases and duplicate records from entering the database.
- The user can partially save data, as it is entered, if the user is interrupted during entry or in case the internet connection is lost.
- If additional information is requested by eQHealth, it can be submitted electronically by the provider and the request is automatically "reactivated" for review completion.
- The key contact person, a User Administrator, at the provider level will assign or revoke privileges for new users or existing users of the system as personnel changes take place. Software or data file maintenance is not required by the provider – all data is keyed directly into eQHealth's data system.
- Secure transmission protocols including the encryption of all data going over the Internet ensure that eQHealth is keeping current with required HIPAA security regulations.
- The provider can access the reporting module at any time to print a paper copy of electronic reviews submitted to eQHealth and obtain answers to the following types of questions:
 - What is the current status of a particular review at eQHealth?
 - What is the history of previous reviews for a recipient?
 - What is the Prior Authorization Number (PA #) and/or last date certified for a case(s)? OR

- Obtain a list of all current in-process reviews for my organization
- Obtain a list of all authorizations for an admission date range.
- Obtain a list of the detailed review outcomes for a date range.
- Obtain a printout of a specific request for a recipient.

Benefits for the Provider:

- The online entry screens provide an efficient transfer of information.
- There will be less paper handling on both ends, enabling a speedier review process.
- The system is directly connected to eQHealth's eligibility files for immediate verification of eligibility.
- Multiple requestors and simultaneous transmission from multiple PCs within a facility are allowed (each will be tracked via a separate login).
- The reporting module will provide real-time status of reviews.

What You Need to Use the System:

- A provider will need Internet access for the personnel who will be submitting certification requests and accessing the reporting module.
- Our eQSuite™ system is a secure HIPAA compliant browser application which will be accessed over the Internet at <http://fl.eqhs.org>. To access the eQSuite™ system, the following minimum hardware and software requirements must be met:

Minimal Computer System Requirements:

Any of the two most recent versions of:

- Internet Explorer
- Google Chrome
- Mozilla Firefox
- Safari
- Broadband internet connection

Accessing the System

eQHealth's Web based entry and inquiry system is accessed from our Web site home page.

Access the Internet with your web browser and go to <http://fl.eqhs.org/>. From here you can follow the link to the eQSuite™ login.

The user must login to access the Review Request data entry system. This is an example of the login screen. Enter your User Id and Password here. The password must be entered for confidentiality, security and tracking purposes. Each user is responsible for maintaining the confidentiality of their individual logins and passwords. If you believe the security of your login or password has been compromised, change your password. You may adjust many other personal account settings from the **Update My Profile** menu option.

Username Password

[forgot password?](#)

NOTICE:

- SYSTEM UPGRADE: eQ Suite will not be available for use on Saturday evening, December 25th, from 8 pm until 9 pm.

Your User Administrator must also create all new accounts. The User Administrator has access to many account maintenance options on the **User Administration** menu option.

For security reasons, users can not stay logged on if they are not submitting reviews or running reports. The entry system is directly tied to eQHealth's database, and the system will not maintain an idle connection for more than 20 minutes. The user does not need to exit their Internet browser window or eQHealth Web home page. Simply log back on to the system with the secure password to enter another review request.

The login screen also displays system notices about events that may impact use of the eQSuite™. These messages are displayed in a notice box immediately below the login box. For example, the date and time span for system upgrades, that may make the website temporarily unavailable while the work is being done, are posted in advance.

Menu Options in the System

After successfully logging onto the system, the user will be presented with the screen shown below. There are two locations for the menu items. They are shown across the top of the screen as well as being present on the menu tab to the left. From this initial screen the following menu options are available. Your User Administrator will determine which options are available to you.

RETRIEVE DATA

- ▶ Select the appropriate type of review:
 - If this is a prior authorization request and the patient either is currently in the hospital OR is scheduled for a future treatment program, then select “Admission” and click **Retrieve Data**. This will open the rest of the associated content.
 - If this is a request to add additional days to a previously authorized treatment, then select “Continued stay” enter the PA #, and click **Retrieve Data** button. This will open the rest of the tab and allow the system to pre-populate the existing information.
 - If this is a prior authorization request and the patient has been discharged from care, then select “Retrospective” and click **Retrieve Data**. This will open the rest of the associated content.
 - If this an attempt to change a previously authorized treatment, then select “Modify Authorization”, enter the PA # and click **Retrieve Data** button. This will reveal and pre-populate the existing information.

Provider ID and Name

The agency rendering the treatment. This is a “view only” field -not a user enter field. The system will automatically fill in the Medicaid provider number, provider name, and city based on the user login.

Review Type

A Request Type must be selected first so the system will know how to edit the information. Choose between the following:

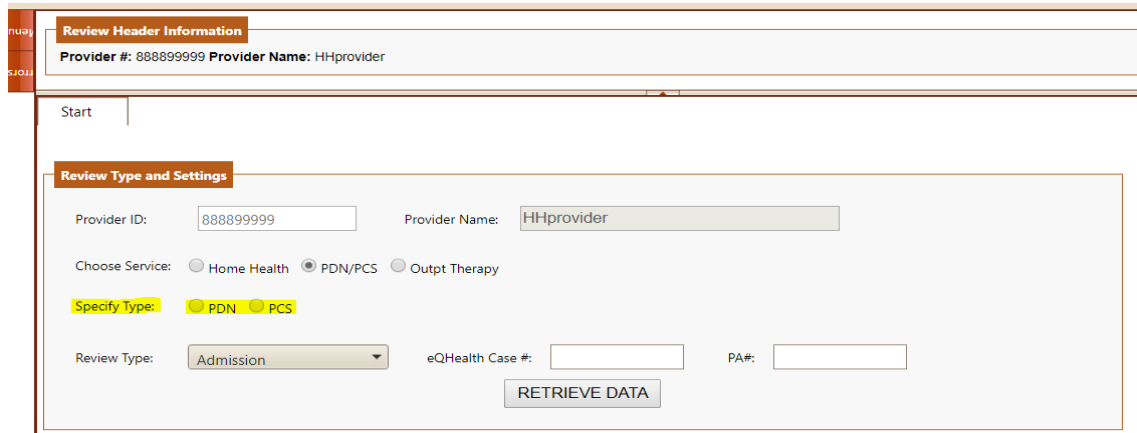

Admission: The initial request for a service or item.

Continued Stay: You are requesting a continuation of services, you will need the Case ID or the eQHealth assigned PA#.

Modify Auth: You need to make changes to a review that was submitted and approved.

Choose Service: Select the appropriate service that is being requested Home Health or Private Duty Nursing/Personal Care Services. If you select PDN/PCS, then you must specify again if its PDN or PCS.

Note: If you need to make changes to a review that is still at 1st level you will have to cancel your submission and re submit correctly.

The screenshot shows a web application interface for reviewing information. At the top, there is a section titled "Review Header Information" with a sub-header "Review Header Information". Below this, it displays "Provider #: 888899999" and "Provider Name: HHprovider". Below this is a "Start" button. Below the "Start" button is a section titled "Review Type and Settings". This section contains several fields: "Provider ID:" with a text box containing "888899999", "Provider Name:" with a text box containing "HHprovider", "Choose Service:" with three radio buttons: "Home Health", "PDN/PCS" (which is selected), and "Outpt Therapy", "Specify Type:" with two radio buttons: "PDN" (which is selected) and "PCS", "Review Type:" with a dropdown menu showing "Admission", "eQHealth Case #:" with a text box, and "PA#:" with a text box. At the bottom of this section is a "RETRIEVE DATA" button.

Recipient ID

Enter the recipient's number that appears on the Medicaid ID card.

If a recipient has been assigned multiple numbers and the number entered by the provider is not a current number, then the system will check the cross-reference table and supply the new recipient number to be used along with an explanatory message.

The recipient must have Medicaid eligibility on file for the dates of service.

If the patient is a baby and:

Has a personal Medicaid number. Enter this number in the Recipient ID box above and leave the Baby Name and date of Birth date blank. Otherwise, if the mother has a Medicaid number, then enter the Mother's number in the Recipient ID box above and enter the Baby Name and Birth Date below. If the Mother does not have a Medicaid number, then click the [Create Temp Baby ID] button to create a temporary Medicaid number for the baby. See the Baby Name section for more details.

Recipient Name

Based on the recipient number, the system will display the recipient's name. This is a "view only" field – not a user entry field.

DOB

Based on the recipient number, the system will display the recipient's date of birth (DOB). This is a "view only" field – not a user entry field.

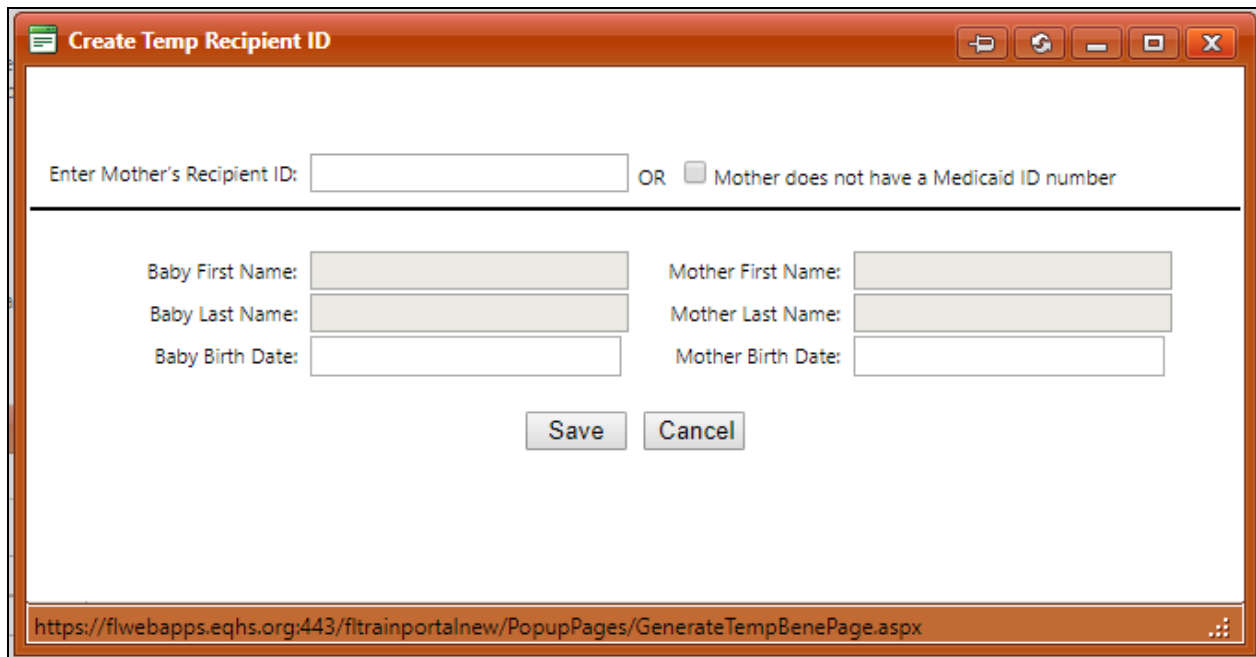

Sex

Based on the recipient number, the system will display the recipient's gender. This is a "view only" field-not user entry field. If the request is for a Baby and the mother's recipient number is entered, and edit error will occur if the corresponding sex on eQHealth's recipient table is not "female".

Baby Name

The baby's first and last name must be entered if this is the first review request for a Baby admission. If the baby name has not been provided, enter the Baby Girl/Boy 1 of "Mother's name. For a concurrent review request, the baby's name is not automatically transferred from the admission review and displayed on screen.

A temporary ID for the baby is request here. For this, the system will request the Baby's name, the baby's birth date, the mother name, the mother's birth date, and the mother's Recipient ID if available.

Baby's Birth Date

The baby's birth date must be entered if this is the first review request for a Baby admission. For a concurrent review request, the baby's name is automatically transferred from the admission review and displayed on the screen.

Physician and other Health Care Practitioners

The Florida physician Medicaid number of the physician rendering the service must be entered here. This can be the license number, the NPI number or the Florida Medicaid physician number.

To enter the Medicaid number into the grid, you must select the **Edit** link. If the number is unknown, press **Search** to find a valid Physician or Clinician Number. The Medicaid ID# is a 9-digit number. Make sure to select a physician with a valid ID.

You will get the following screen for search criteria to be entered. You may enter a full name or just an initial of the last name then press enter. The list will show on the screen (e.g. Clark) Click on **Select** on the record for the desired physician the provider number, name and demographic information will be filled based on the physician number. If you have more current information the demographic information can be updated by the user.

Admit Date

Enter the anticipated or scheduled start date of service.

If the recipient is ineligible for the entire length of stay, the eligibility begin date must be entered.

The system will disallow a request to be entered if a duplicate is determined to already be in process at eQHealth. Duplication is determined if there is a review request already on file for the same Provider ID, Recipient ID, Admission Date, and Baby Name (if applicable).

The system will check for previous admissions on file where discharge dates have not been submitted. A warning dialog box will be displayed to the user when the dates of service appear to overlap with a previous admission.

Proposed D/C Date

Enter the proposed discharge date if the actual discharge date is unknown at the time of the review request.

Actual D/C Date

Enter the discharge date if the recipient has been discharged from the facility. The discharge date must be on or after the admission date and on or before the current date. A discharge date must be entered for all Retrospective requests.

eQHealth Solutions certification determination does not guarantee Medicaid payment for services. Eligibility for and payment of Medicaid services are subject to all terms and conditions and limitations of the Medicaid Program.

PROVIDER ATTESTATION STATEMENT
I hereby attest that, as a home health visit, private duty nursing, or personal service provider or provider representative, an order for home health visits, private duty nursing, or personal care services has been received for the recipient. I attest that the prescribing provider has certified that leaving the home to receive these services is contraindicated based on the recipient's condition. In addition, I attest that the plan of care has been reviewed and approved by the prescribing provider. A home health visit, private duty nursing, or personal care service provider who knowingly or willfully makes, or causes to be made any false statement or representation of a material fact in any application for Medicaid benefits or Medicaid payments, may be subject to the application of sanctions, which include, but are not limited to, fines, suspension and termination. In addition, the provider may be prosecuted under federal and/or state criminal laws and may be subject to civil monetary penalties and/or fines.

Attachments

Supporting documentation requirements are dictated by AHCA policy. Documents should be submitted at the time the authorization request is entered. However, for requests submitted without supporting documentation, the documents can be submitted after the request is submitted by accessing the review via the “Attachments” tab.

The documents may be linked to a review request in one of two ways:

- a. You may link a pdf, jpeg, tif, or bmp document directly to the review

Order for study(s)

Once you have selected all the coversheets you would like, click Generate Coversheet. The system will open a new web browser for each coversheet you selected, and you can save or print by clicking the appropriate option at the top of the browser window.

IMPORTANT NOTE: Do not reuse or modify the fax sheets. Like the barcodes on the cereal you buy at the grocery store, our system needs the correct barcode for each document

Upload option: Click Upload attachment image(s) to directly link a digital image to the review request. You will see a popup box with a list of all current available document options for the review.

Note: Once you have uploaded the image the system will let you know it's been successfully submitted.

Letters

All written correspondence from eQHealth Solutions will be available via our web system by accessing the **Letters** menu option. Letters are grouped into 3 categories as follows:

- In Process: Letters generated prior to completion of an initial review, including the pending and suspend letters.
- Completed: Initial review determination letters.
- Reconsideration: Reconsideration outcome letters.

Click the tab of your choice and enter the required information.

Each facility will have one person designated to be the User Administrator. They will be allowed to add new user logins, change passwords, and deactivate users who should no longer have access to the system.

For security compliance, each individual user is responsible for keeping their login/password secure. If a user feels that their login/password has become compromised, they must notify the User Administrator, who should access the Administration option and change the user's login/password.

If, for any reason, the facility User Administrator is no longer associated with that facility or will no longer serve in this capacity, eQHealth should be contacted and the master files will be updated to grant administrative rights to another designated individual.

The User Administration module is accessed via eQHealth's Website home page.

Launch the web browser (e.g. Internet Explorer) and navigate to <http://fl.eqhs.org/>. From here you can follow the link to the eQSuite login.

Enter your User Administrator ID and Password.

Click User Administration on the menu list.

A list of valid users (shown below) will be displayed. The User Administrator can add a new user or change login information for an existing user from this user list.

Click on **Add New User** to enter login information for a **new** user. The following screen opens. Enter required information. When complete, press **Save Changes** to continue or press **Back to Users List** to return to the list of users.

NOTE: Every user's Login ID and Password is tied to a "unique" Medicaid provider number. Therefore, users at multiple practice locations CANNOT be added using the same login/password for a given provider. For example, a user at location B cannot have the same Login/Password at location A. These logins are assigned by the User Administrator and complies with the local area networks standards for user logins/passwords.

User Name	Unique user identifier. All alpha characters must be in lowercase. Examples: user's first name; user's first initial then last name Login ID must be unique across all users of eQHealth Web based system. If you enter a Login ID
------------------	--

	and the system responds that this ID is already on file, then you must use a different ID. A common solution to this situation is to append a numeric digit at the end of the last name. For example, user “Jane Doe” would be jdoe1.
Password	Must be between 6 and 10 characters. All alpha characters must be in lowercase. Each user is responsible for keeping this password confidential.
First and Last Name	The user’s name. This name will be automatically copied to every review request that is submitted to eQHealth by this user. It is maintained on the review record and is printed on the certification letters.
Phone & Extension	The user’s phone number and phone extension. The phone and extension numbers will be automatically copied to every review request that is submitted to eQHealth by this user. It is maintained on the review record.
Inactive Date	If a user is no longer with the facility or is no longer authorized to access the provider’s confidential data, then the facility access User Administrator should immediately inactivate their login. Simply key a date into this field and the user login will be inactivated from the entered date forward.
Indicate if the user is granted access to view provider letters	The User Administrator determines which users can view provider letters, run reports and/or create review requests. The User Administrator can at any time change the setting of this field thereby opening or closing access to this module.
