

## Maternity & Newborn Prior Authorization Requirements

### For Admission dates on or After 7/1/13

Excluding BBA and Undocumented Non-Citizen review requests

This document provides information to assist in determining when prior authorization by eQHealth must be obtained. Please note the following:

- For newborns requiring prior authorization who do not have their own Medicaid number eQHealth will assign a temporary identification number.
- The newborns certification information will not be transmitted to the fiscal agent until the provider obtains a valid Medicaid number and updates the eQSuite record.

Please refer to the Agency's provider handbooks for additional information and billing requirements.
